

With great pleasure we invite you

## to the opening of **the exhibition** **"Future for seabirds"**

which will be held on **Thursday, September 24, 2020** at 12:00 h at  
the Natural History Museum in Split.

The exhibition is organized as part of the project **LIFE Artina –  
Seabird Conservation Network in the Adriatic**  
through which we want to show details of the life mysterious lives of  
pelagic seabirds Yelkouan and Scopoli's shearwater as well as  
Audouin's gull.

The aim is not only to familiarize visitors with the life of these  
beautiful seabirds but also to raise their awareness about the  
challenges they encounter through the eyes of the researchers.

The exhibition will run until **October 24, 2020**.

For all those who are not able to visit the exhibition in Split, we are preparing a  
virtual walk.

You can find more about the project on our website ([www.lifeartina.eu](http://www.lifeartina.eu)).
